

BONALDO

Frame K Sideboard

Designer: Alain Gilles

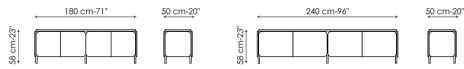

A metal frame, which gives the sideboard its name, side panels and ceramic top inserted into the frame: the Frame collection decisively represents an alternative way to design a sideboard. The sideboard stands out for its bevelled corners that give overall dynamism, making the metallic frame visible, which frames and highlights, by contrast of the Calacatta

Macchia Vecchia or Laurent ceramic doors. The result is simple sophistication, in addition to strong personality: the multitude of personalisation possibilities allows this refined and functional furnishing element to fit into the most classic or contemporary living spaces.
