

BONALDO

Sunrise, Sunrise light

Designer: Gino Carollo

Designed by Gino Carollo, Sunrise is a sideboard with three or four doors fitted side by side, with absolutely formal linearity. Stylistic essentiality and sophisticated finishing, pure, simple, geometric lines, that are rigorous and extremely elegant for a furnishing element that is only apparently minimal, but in reality is surprising, as well as robust and functional. Perfect for living and dining environments, Sunrise is made in matt lacquered wood,

available in two elegant colours, able to integrate itself perfectly with the widest variety of styles. The internal shelves, in glass, make it possible to organise the contents in an orderly way. In the Sunrise Light version, with a light fitted in the visible compartment, the design assumes a further note of functionality and style.
